Co-Teacher(s)

Date Click here to enter a date.

PURPOSE: This tool is designed to assist co-teaching teams by facilitating reflection upon their co-teaching implementation in order to enhance or refine existing practices.

Directions-Part 1

In each of the category areas, each teacher should <u>individually</u> check the rating of **initiating**, **developing** or **sustaining** that best describes their **co-teaching team's** current status of collaborative implementation of co-teaching approaches. The categories included are planning, instructional environment, physical environment, discipline and school environment.

Initiating: Two teachers have been assigned to the same classroom and have begun to develop a co-teaching partnership and establish responsibilities to be shared.

Developing: Co-Teachers are sharing many responsibilities, modifying their thinking and implementing evidence-based co-teaching practices in an observable way.

<u>Sustaining</u>: Co-Teachers consistently share responsibilities and collaboratively implement evidence-based co-teaching practices through seamless planning, delivery and assessment of instruction.

	Initiating	Developing	Sustaining
	 One teacher addresses the planning and adaptations necessary for students' specific needs including Universal Design for Learning 	 One teacher plans for instruction, assessment, behavior and integration of technology 	 Both teachers equally share in the lesson development appropriate to the approach of co-teaching utilized
ent	 One teacher plans content delivery 	 One teacher adapts plans for students with disabilities instruction, assessment and behavior using Universal Design for Learning 	 Identification/alignment to and use of State Curriculum (SC) and/or Core Learning Goals (CLG)
Planning for Instruction and Assessment	 Each teacher understands the outcome of the lesson and separately monitors student progress 	 Teachers plan to jointly deliver the lesson 	 Incorporation of modifications, accommodations, Universal Design for Learning and differentiation to address diverse learning needs
PI , for Instructio	 Special education teacher plans for IEP implementation 	 One teacher monitors student progress and adjusts instruction accordingly 	 Planning for implementation of instruction and assessment aligned to the SC and individualized goals to be addressed for all students Selection of appropriate instructional and assessment delivery, based on students' needs and content, including the integration of technology
			 Incorporation of classroom management procedures Both teachers monitor student progress and adjust instruction accordingly
	 Teachers maintain separate gradebooks 	 Teachers begin to develop a consistent grading policy 	 Both teachers agree upon a consistent policy for grading and homework

	Initiating	Developing	Sustaining
	 Students are learning and engaged by only one teacher 	 Students learn and engage more with one teacher than another 	All students learn and engage with both teachers
	 Special educator only provides assistance to the students identified with disabilities and collects and analyzes data in isolation 	 One teacher leads instruction while the other teacher only interjects, circulates and provides student support as needed 	 Teachers share equal status in instruction, assessment and classroom management, including data collection and analysis
ironment	One teacher's name is included on all written materials	 One teacher primarily communicates with students, parents, other teachers and administrators, regarding instruction, assessment and classroom management 	 Teachers share responsibilities such as: communicating with students, parents, other teachers, and administrators, regarding instruction, assessment and classroom management
Instructional Environment		 One teacher's name is noted on the majority of information with occasional inclusion of the other teacher's name when it relates to specific students 	 Both teachers' names are listed on items such as the door, rosters, report cards, and written communication to parents
Inst	 Special educator develops assessments for students identified with disabilities and provides 	 One teacher develops assessments and collects and analyzes data 	 Teachers share responsibility for integrating technology into instructional delivery and assessment
	grades to the general educator.	 One teacher implements agreed upon policy for grading and homework 	 Both teachers utilize a consistent policy for grading and homework

	Initiating	Developing	Sustaining
	Resources and materials are viewed as property of one teacher or the other	 Access to all materials in the work environment may be limited 	 Both teachers have shared access to all resources and materials
	One teacher has no assigned area in the learning environment	 Work space is shared but is somewhat limited 	 Both teachers have appropriate and reasonable work space in the learning environment
Physical Environment	No flexibility in use of space for co-teaching approaches and the encouragement of student movement for interactions	 Space restricts selection of co-teaching approaches and appropriate student movement for interactions 	 Space allows for grouping and student movement for interactions in the implementation of the various co- teaching approaches

	Initiating	Developing	Sustaining
Discipline	 One teacher is responsible for establishing and communicating expectations Each teacher disciplines a specified group of students One teacher is solely responsible for implementing Behavior Intervention Plans Students respond to one teacher only in regard to instruction and discipline Teachers independently decide upon behavior practices to use 	 Some shared responsibility for establishing and communicating expectations The majority of discipline is handled by one teacher One teacher has primary responsibility to implement Behavior Intervention Plans Students respond primarily to one teacher in regard to instruction and discipline Teachers use some of the behavior practices within an existing school- 	 Both teachers share responsibility for establishing and communicating expectations for all students Both teachers ensure all students adhere to classroom expectations Both teachers share responsibility to implement Behavior Intervention Plans Students respond to both teachers equally in regard to instruction and discipline Teachers use behavior practices consistent with any existing
Discip	within the classroom	wide approach	school-wide approach(es)

	Initiating	Developing	Sustaining
	 Minimal or no time for job embedded co-planning and co- teaching 	 The schedule provides limited time for job embedded co-planning and co-teaching 	 The schedule provides time for job-embedded co-planning and co-teaching
t	 Few resources are provided including: scheduling, space, appropriate student grouping, instructional materials, and technology Teachers work in isolation to address barriers or problems 	 Limited resources are provided including: scheduling, space, appropriate student grouping, instructional materials and technology The environment provides some support for collaboration and problem-solving by staff 	 Needed resources are provided including: scheduling, space, appropriate student grouping, instructional materials and technology The environment supports collaboration and problem- solving by staff
School Environment	 The school community does not embrace collaboration and co- teaching as an integral part of instruction and assessment 	 Some members of the school community embrace collaboration and co-teaching as an integral part of instruction and assessment 	 The school culture embraces collaboration and co-teaching as an integral part of instruction and assessment
School E	 Minimal or no professional development, including job- embedded professional development specific to co- teaching is provided 	 Limited professional development specific to co-teaching including job-embedded professional development is provided 	 High quality professional development specific to co- teaching is provided based upon teacher and student needs including job-embedded professional development
	 Feedback provided to co- teachers reflects limited or no understanding of the co-teaching framework and focuses more on one teacher than another 	 Some feedback is provided to support enhancement of co- teaching and collaborative practices which reflects partial understanding of the co-teaching framework, but may focus more on one teacher than another 	 Feedback and coaching is provided to support enhancement of co-teaching and collaborative practices as reflected in the co-teaching framework

Directions - Collaborative Reflection

Complete the following section <u>collaboratively</u> with your co-teaching partner. Begin by sharing your responses to Part I of the coteaching reflection tool with your co-teacher. Compare your ratings (initiating, developing, or sustaining) and discuss your individual and team strengths and areas for improvement. **Reflection Tool Part 3** may be helpful in recording your action plan that will guide your next steps in enhancing your co-teaching skills.

Co-Teaching Categories	Strengths	Areas for Improvement

Directions Part 2-Instructional Delivery

In this section, you will *individually* describe your **team's** implementation of co-teaching approaches. Check the rating of sustaining, developing or initiating, that best describes your team's implementation of each co-teaching approach.

Co-Teaching Approach	Definition ²	Initiating	Developing	Sustaining
1 Teach 1 Assist ¹	One teacher is responsible for teaching. One teacher circulates	 No co-planning occurs, although the lesson plan may be exchanged 	 Limited co-planning occurs, with one teacher developing the lesson separately 	 Co-planning occurs consistently
	throughout the classroom providing unobtrusive assistance to students as needed.	 No opportunity to switch roles-lead/assist 	 The same teacher leads predominately, while the other usually assists 	 Each teacher has the opportunity to lead and to assist based on the instructional activity
		 This approach is used exclusively 	 This approach is used predominately 	 This approach is used strategically
		 Special education teacher only assists students with disabilities 	 Students interact mostly with one teacher or the other teacher 	 Both teachers share responsibility for maintaining the learning environment for all students
				 Special educator's role clearly reflects a focus on student's IEP needs

Co-Teaching Approach	Definition ²	Initiating	Developing	Sustaining
Station Teaching ¹	Two teachers divide content and students. Each teacher then teaches the content to one group and	 Separate content is planned by each teacher and delivered at each station, although resources may be exchanged 	 Lessons are planned separately 	 Co-planning occurs consistently
	subsequently repeats the instruction for the other group. If appropriate, a third "station" could give students an opportunity to work	 One teacher makes all the decisions about objectives, skill development, pre- teaching, etc. 	 Decisions regarding main objective, needed skill development, and pre-teaching for lesson are developed in isolation 	 Decisions for lesson, including main objective, needed skill development, and pre-teaching are collaboratively developed
	independently.	 Students rotate through a series of stations that may not be closely related. 	 Students rotate through two separate content stations and an independent/partner activity 	 Students rotate through two cohesive content stations and, if appropriate, a related independent/ partner activity
		 Teachers group students with disabilities separately 	 Teachers group students without pre- determined criteria Students with disabilities are unevenly distributed among groups 	 Teaching team uses pre- determined criteria to group all students, and students with disabilities are part of each group

Co-Teaching Approach	Definition ²	Initiating	Developing	Sustaining
Parallel Teaching ¹	On occasion, students' learning would be greatly facilitated if they just had more supervision	 Co-planning does not occur, but teachers may exchange materials and resources 	 Co-planning occurs sometimes but lessons are planned separately 	 Co-planning occurs consistently
	by the teacher or more opportunity to respond. In parallel teaching, the teachers are both teaching the same	 Each teacher delivers different/unrelated content 	 One teacher is responsible for teaching grade level content 	 Each teacher presents the same content to divided group using strategies designed to meet individual student needs
	information, but they divide the class group and do so simultaneously.	 Special educator has separate group for students with disabilities and teaches modified content 	 One teacher has a separate group for students with disabilities to teach content using a variety of instructional strategies 	 Teaching team uses pre- determined criteria to group all students, including students with disabilities
				 Students with disabilities are a part of each group

Co-Teaching Approach	Definition ²	Initiating	Developing	Sustaining
Alternative Teaching ¹ In teaching ¹ In teaching ¹ In teaching ¹ In teaching ¹ In teaching ¹	n most class groups, becasions arise in which several tudents need pecialized attention. In alternative eacher takes esponsibility for the arge group while the other works with a maller group.	 Co-planning does not occur Special educator always leads smaller group Small group is static and composed only of students with disabilities This approach is the primary mode of instruction, so students with disabilities are usually working separately from the rest of the class 	 Co-planning occurs sometimes One educator predominately leads the large group Small group is composed of students who are struggling with a particular concept or skill; grouping is adjusted periodically This approach is used primarily or exclusively for remediation for acceleration of struggling students 	 Co-planning occurs consistently Both teachers share responsibility for leading smaller teaching groups Small groups are formed flexibly and fluidly to address instructional needs This approach is used creatively to address a variety of student needs, including remediation for acceleration, pre- teaching, and enrichment

Co-Teaching Approach	Definition ²	Initiating	Developing	Sustaining
Team Teaching ¹	Both teachers are sharing the delivery of, and have equally	 Co-planning occurs rarely, if ever 	 Some co-planning occurs sometimes 	Extensive co-planning occurs consistently
Interactive Teaching	active roles in leading the class. Both teachers are actively engaged in the delivery of core instruction.	 One teacher delivers all the content information Special educator delivers only supplemental instruction, not core content instruction 	 One teacher (usually the general educator) delivers majority of core content Each educator delivers a prescribed section of the lesson 	 Both teachers share delivery of core content to the entire class Teachers use a "conversation" style to deliver instruction simultaneously
		 Student Interactions are based on teacher roles (Special Educator or General Educator) 	Student interactions and engagement are primarily with the one teacher delivering content	 Student interactions with both teachers demonstrate cohesive delivery of instruction and promote high levels of student engagement Special educator leads accountability for IEP monitoring

Directions Part 3-Collaborative Reflection

Complete the following section <u>collaboratively</u> with your co-teaching partner after sharing your responses to Parts I and/or 2 of the co-teaching reflection tool with your co-teacher. Based on the outcomes of your collaborative reflection, develop an action plan that will guide your next steps in enhancing your co-teaching skills.

Write one or more Co-Teaching Learning Goal(s): Include your action steps to obtain your goal(s): [consider activities, preparation, implementation, outcome measures of success and timeline]

Please specify any external supports that may be needed to achieve your goal(s).

Based upon your reflective discussion, list 3 focus areas of support/professional development that would be most helpful to you in achieving your co-teaching learning goal(s). A list of possible topics is on the next page; feel free to add your own as well.
